

Single Malt Scotch Whisky Characteristics

- ISLANDS -

Islay & Skye, in the Inner Hebrides generally produce strong peaty malts with maritime aromas. The characteristic smokiness packs a punch.

- THE HIGHLANDS -

The Highland malts vary greatly in character. From dry to sweet, touches of smoke & peat.

- ISLAY -

Islay is often called 'Whisky Island' due to its eight distilleries. It's malts are very distinct with heavy peat & smoky flavours.

- SPEYSIDE -

This region is home to approx. half of Scotland's distilleries. It produces mellow, sweet and fruity malts.

- THE LOWLANDS -

There are only 3 working distilleries in this region. The malts tend to be soft and light with subtle delicate aromas.
